CAREER OBJECTIVE

Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings.

SKILLS

- Python - Django
- C, JAVA
- HTML , CSS, JS
- PHP
- MySQL, Oracle
- IDE - Visual Studio, Eclipse, Pycharm

MINOR PROJECT

DIABETES PREDICTION USING ML

In this project, we created a user interface where the user fills out the relevant information and the machine determines whether or not the patient is diabetic.

- Machine trained with 758 dataset.
- Five algorithm used to train and test the machine.
- Python - Django framework used for UI.

PERSONAL PROJECTS

ONLINE VOTING SYSTEM

PHP was used as the backend language in this project, whereas HTML and CSS were used as the frontend languages. This website is designed specifically for tiny voting systems such as those found in schools, colleges, and other institutions. The user must first register before casting their vote.

TEXTUTILS

JavaScript is used as backend language and ReactJs is used as frontend language. This app lets the user to make changes with the big size of text like-uppercase, lowercase, capitalize, clear, space remover, copy.
